

# Sol Success Tips

## Before The Test:

- Spread out your studying over a few days and don't just cram the night before!
- Get a good night's sleep each night!
- Eat a good dinner and breakfast, hunger can be distracting!
- Bring your calculator cleared of all formulas!
- Plan to bring long sleeves in case it is cold in your testing room!
- Pack your bags the night before so you don't forget anything in the morning!
- Know where you are taking the test!
- Use the restroom before you go to the testing room!

## During The Test:

- Relax and Take your time!
- Read each question carefully!
- Think of the correct answer before reading the answer choices!
- Read ALL of the answer choices before committing to an answer!
- Use the tools available in TEST NAV!
- Eliminate extra info!
- Narrow your choices!
- Look for key words and phrases!
- Skip questions you don't know and mark them for later (you might see clues on another question!)
- Try to answer every question with at least an educated guess!
- When there is a large reading passage, read the question(s) first!
- When using scrap paper, double check to make sure that you have written the information correctly!
- Fill in bubbles completely and erase any stray marks fully!
